Baku, Yasamal

FRONTEND DEVELOPER

I am a passionate frontend developer with expertise in creating dynamic, user-friendly web interfaces using modern frameworks like React and Next.js. My focus is on delivering seamless user experiences through clean, efficient, and maintainable code. Constantly learning and evolving, I thrive in collaborative environments that challenge me to push the boundaries of creativity and innovation.

KEY COMPETENCIES

Html, Css, Sass & Scss, Javascript, React, js, Angular, Typescript, Nextjs, MUI, Antd, Tailwind, rtk query, micro front, vite

Express js, Node js, Mongo db, Mysql, Rest api,

Ubuntu, Apache, Nginx, CI/CD, gitlab, github, agile, jira, confluence

PROFESSIONAL EXPERIENCE

Bank Respublika

March 2025 - Present

Frontend Developer

- I focused on building and maintaining websites, including designing responsive layouts, implementing interactive features, and ensuring optimal performance across various platforms.

Weblash

March 2023 - Present

Founder and Frontend Developer

- I focused on building and maintaining websites, including designing responsive layouts, implementing interactive features, and ensuring optimal performance across various platforms.

ERP-INTEL

Aug 2023 - Jan 2025

Frontend Developer

- Worked as a lead developer on large-scale ERP projects such as finance, HR, warehouse, contract management, performance management, LIMS, and GIS. Specialized in creating responsive and efficient user interfaces using technologies like HTML, SCSS, React, Ant Design, and RTK. Collaborated with cross-functional teams, implemented CI/CD pipelines, and managed server environments with Apache and Ubuntu.

Code Academy

Oct 2022 - May 2023

Education mentor

- Teaching Fullstack programming to students
- I give assignments to students and check their assignments
